

From 476 south (and the Schuylkill expressway)

Take 476 to the **Lima/Springfield exit**. This is the exit after the "Rt. 3/Newtown Sq." exit. Be careful, because a mile before the exit, another lane opens for trucks to climb the hill. Don't get into this far right lane. Stay in the "middle" lane. At the top of the hill, the far right lane ends.

When you exit, there will be a traffic light at the bottom of the ramp. Go STRAIGHT through the light, to the next traffic light (very short distance). Make a LEFT at this second light. There is one more light to this 'clover leaf', go STRAIGHT through it.

Now that you completed the clover leaf, you will be merging into the **Route 1 North** traffic. Merge into the middle lane. The right lane is marked Sproul Road. You DON'T want this, you want the lane marked Philadelphia. There is a traffic light just as you merge; this is in front of the Marshall's shopping center. Stay straight through the light, go under the overpass, come out of the overpass to another traffic light. Go STRAIGHT through this light and IMMEDIATELY get into the RIGHT LANE, to turn RIGHT at the next light.

This intersection is **SPRINGFIELD ROAD**. There is a gas station on the right corner. MAKE THIS RIGHT onto Springfield Road.

Almost there. Now follow directions "From Springfield Rd", below.

From 476 north (and 95)

Take 476 north to the Lima/Springfield exit. This is the exit after the "Springfield/Swarthmore" exit. At the bottom of the exit ramp there will be a traffic light. Turn/yield RIGHT onto an entrance/merge lane for Route 1 North. Merge into the middle lane. The right lane is marked Sproul Road. You DON'T want this, you want the lane marked Philadelphia. There is a traffic light just as you merge; this is in front of the Marshall's shopping center. Stay straight through the light, go under the overpass, come out of the overpass to another traffic light. Go STRAIGHT through this light and IMMEDIATELY get into the RIGHT LANE, to turn RIGHT at the next light.

This intersection is **SPRINGFIELD ROAD**. There is a gas station on the right corner. MAKE THIS RIGHT onto Springfield Road.

Almost there. Now follow directions "From Springfield Rd", below.

From City Line Avenue (from Phila. via Route 1)

Take City Line Avenue **south**. Cross Route 3, West Chester Pike. Continue on City Line (It will now be called Township Line) for several miles until you come to an intersection where **State Road** merges into **Township Line from the left**. There will be a Drexline Shopping Center on the left, and a Hess gas station on the right. Go through this intersection, through the next traffic light (Rolling Road), and get in the left turning lane for the next traffic light. This intersection is **SPRINGFIELD ROAD**. There is a gas station on the left corner. MAKE THIS LEFT onto Springfield Road. Almost there. Now follow directions "From Springfield Rd", below.

FROM SPRINGFIELD ROAD

Follow Springfield Rd for just about a mile. You will go through 2 traffic lights...second one is Saxer Ave. After Saxer Ave, and before you come to a third traffic light, you will see a circle of tudor homes on your left. This is Windsor Circle. If you hit the third light, at the trolley crossing, you have just passed the circle.

Yield left around the circle COUNTERCLOCKWISE (its a one-way around the circle). We are 7 houses from Springfield Road, with the number 14 on the gate. Park anywhere on the circle, in front of the homes.
